WACOCO Coordinators meet, discuss typhoid sensitization for Kisenyi

WACOCO coordinators yesterday met central division councilors to discuss sensitization measures for typhoid affected areas of Kisenyi. Stemming the spread of the outbreak is a priority. As such, the team present resolved that marathon sensitization in Kisenyi was required as most people in Kisenyi are still using underground wells.

Manager Urban poor hosted on Akaboozi

LEFT: Gerald Ahabwe, the manager urban poor being hosted on Akaboozi fm. On the show, he addressed issues of water and sanitation for the urban poor of Kampala.

Area Watch/ISDP updates

Mbale

As a community centred corporation, staff from NWSC Mbale took time off to help clean the town in which they operate.

Matugga

Testing of a newly installed 100kVA generator completed at Matugga pumping station. The development will ensure more stable water supply for the area.

RESAIL

Barely a week after its launch, Entebbe's Reduction Suppressed Arrears and Illegal connections (RESAIL) Program has netted its first culprits. An illegal connection was discovered in Kitoro. The premises' meter had been taken earlier but the residents reconnected themselves using a pipe. Further investigations revealed another hidden connection after water was found flowing in the kitchen even after supply to the tank had been disconnected. An askari on site was also found to be selling water. More illegal connections were discovered in Kitoro and Kajjansi. A great beginning to a promising future.

STOP WATER THEFT

Help stop water theft.
